Project 1

Brand: Skechers, I can make an animation taht invol
Objective: Show that skechers are a good shoe that will make you fast, even with one shoe

Idea: Guy is walking, he beats the bird because he's wearing Skechers
Assets needed:

- Guy made in illustrator
- Bird in photoshop
- Skechers shoe
- Skechers logo
- Moving background (mp4 from Youtube)
- Walking sound effects (mp3 from Youtube)
- Bird sound effect (mp3 from Youtube)

Process:

- Guy walking, made in illustrator, each limb is a different layer for mobilization
- Make eyes movable, maybe he'll look at something
- Make a bird in photoshop and make each wing a different layer for mobilization, back wing behind body
- Ideas sketch
- 
- Thumbnail:

-

Very simple, main thing is the body walking movement

- Requirement incorporations:
    - Blending - Add a color layer for background, purple, darken blend
    - Effects/transitions: Ease-out setting on all keyframes to make it slightly bouncy
    - Transform elements used:
        - Scale - used for head of guy, wings of bird
        - Position - used for various limbs, whole body of guy, whole body of bird, text, eyes
        - Rotate - used for limbs and bird wings and text
        - Opacity - used for blended purple image and logo
    - Principles of animation:
        - Squash & Stretch: head, wings
        - Arcs: Guy & bird, on and off screen
        - Anticipation: Guy is still in center before officially leaving
        - Multiple things going on: Bird and guy are moving separately at the same time, creating a whole atmosphere
